

INTERNATIONAL AIRBORNE OPERATIONS

OPERATION ASIA 2018

10 Missions in South East Asia were executed within the last 15 years. We always had the honour to participate in different Airborne trainings and operations as well as in different dive, shooting and rappelling trainings of different Special Forces units. We spend great times in this beautiful region, visited famous places, met new friends, and enjoyed the hospitality of those nations as the fellowship of our host units.

Operation Asia 2018:

INTERNATIONAL AIRBORNE OPERATIONS® will run the next and 10th operation as **Operation Asia 2018** in this region in May 2018! **Term: May, 3rd through 8th 2018**

During **Operation Asia 2018** we will execute, **jumps, shooting, and fast repelling** with our friends from the **SF 911 Brigade in Cambodia**. In reference to your own qualification you may gain the wings of Cambodia by freefall or static-line jumps. Operation Asia 2018 will take place in a **time-frame of 6 days** while it may include sight-seeing in various interesting historical places. The participant may choose where to go and what to join. Additional add-ons may be booked around this term including the **once in a life time opportunity to do freefall jumps over Angkor!**

Views and live expressions of the great cultures will belong to the program. Plenty of **sight-seeing in the capital Phnom Penh and (antic) Angkor** may complete the mission, so also accompanying wives and girlfriends will not get bored.

Parachuting, fast rappelling and shooting with the with the **Royal Cambodian Special Forces 911 Brigade!**

Three jumps by static-line (Mc1) or free fall (with reference to the jumper's qualification) from helicopter Mi-17 are scheduled. Besides the jumps, more military-training like shooting and rappelling will familiarise participants with the skills and procedures of our host-units.
